Subject: Missouri Electric Works

Good Afternoon, Roy,

I understand that Dan Gravatt has used Seagull Environmental on at least one occasion at the Missouri Electric Works Site. I have recently been assigned to the MEW site and need to have some sampling done for the Five Year Review. I need to know what documents will be needed for a task order, including what assumptions might be used for the IGCE. Since I will need soil samples, groundwater samples and fish tissue samples, this task may take a week, especially with travel. Any assistance would be greatly appreciated.

Thanks

--Pauletta
